EDUCATION

New York University

NYC, United States

Ph.D. - Computer Science and Technology

Sep. 2024 - ???

Advisor: Prof. Robert Krueger

Shandong University

Shandong, China

Mater of Technology - Computer Science and Technology

Sep. 2021 - Jun. 2024

Advisor: Prof. Yunhai Wang

Courses: Human-Computer Interaction, Interactive Data Analysis System, Artificial Intelligence, Machine Learning

Jiangsu University of Science and Technology

Jiangsu, China

Bachelor of Technology - Computer Science and Technology

Sep. 2017 - Jun. 2021

Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Computer Graphics, Networking, Databases

Research Experience

Exploring SVG Specification for Data Visualization

Shandong University

Student Leader | Advisor: Yunhai Wang

Aug 2023 - present

- o Description: This research project is dedicated to the exploration of standardized SVG specification with a strong emphasis on enhancing the readability, versatility, and provision of unified standards for visualization charts, all geared towards improving the quality and accessibility of data visualizations.
- Contribution: I contributed by generating innovative ideas, developing a comprehensive design strategy, and conducting thorough literature reviews to inform our work on standardized SVG markup guidelines.

Pen-Touch Selector: Selecting Elements in SVG Charts

Shandong University

Student Leader | Advisor: Yunhai Wang

Jan 2023 - present

- o Description: The research concentrates on a touch screen-based SVG selection system with advanced modeling for accurate element selection and interactive recommendations in complex data charts.
- o Contribution: Proposed innovative ideas and models for distinguishing lasso and tracing methods, ensuring precise identification of selected elements for each method; Implemented interactive user feedback to handle uncertain selections, allowing users to make their choices.

Authoring Data-Driven Chart Animations [P1][Link]

Shandong University Jun 2022 - Jun 2023

Student Leader | Advisor: Yunhai Wang and Bongshin Lee

animations with ease; Written a research paper.

- o Description: The research concentrates on an intuitive tool that empowers users without programming skills to author expressive chart animations through visual language, interactive editing, and smart recommendation strategies. o Contribution: Researched data animation syntax and tools; Proposed and implemented innovative ideas in consultation
- with two advisors; Took responsibility for paper writing and illustrations. o Achievement: Developed an interactive tool based on Canis syntax, enabling users to author data-driven chart

Anomaly Detection for Network Device Configuration [P2][Link]

Shandong University

Student Leader | Advisor: Yunhai Wang

Sep 2021 - May 2022

- o Description: The research concentrates on configuration anomaly detection using over 10,000 configuration files from five manufacturers.
- Exploration: Conducted an in-depth exploration of anomalies in document syntactic structure using big data analysis and statistical methods and offered comprehensive solutions.
- o Solution: Pioneered the development of configuration statement trees and applied clustering analysis to detect rare anomaly patterns, enabling automated detection as a substitute for manual inspection.
- Achievement: Achieved exceptional 85%+ accuracy in anomaly detection with the aid of anomaly samples and gave the modifications methods; Written a research paper and applied for a patent.

SELECTED HONORS AND AWARDS

· · · · · · · · · · · · · · · · · · ·	ı, 2024
• Outstanding Graduates Award, Shandong University Jun	n, 2024
• Postgraduate Excellent Student Award Fund, Shandong University Oct	t, 2021
• Outstanding Thesis Award, Jiangsu University of Science and Technology Jun	n, 2021
• Outstanding Graduates Award, Jiangsu University of Science and Technology **Juntary Company of Science and Technology**	n, 2021
• 1st Prize Scholarship, Jiangsu University of Science and Technology Oct	t, 2019
• 1st Prize in Higher Mathematics Competition, Jiangsu Aug	g, 2018

ACADEMIC ENGAGEMENTS

Participated in the event

International Conference on Geometric Modeling and Processing Qingdao, China Participated in the event, received experts and scholars, and volunteered for other conference services Jun 2024

Review for an academic paper Participated in reviewing an academic paper on interactive time-series data visualization Qingdao, China May 2023

Qingdao, China

Jul 2022

Participated in the event, received experts and scholars, and volunteered for other conference services Aug 2022 The China Visualization and Visual Analytics Conference Xining, China

SKILLS

• Tools: TypeScript, JavaScript, NodeJs, Python, SQL, C++, R, Latex, Adobe Illustrator, PhotoShop

• Soft Skills: Leadership, Event Management, Writing, Public Speaking, Time Management

The Geometric Design and Computing Conference
